Franco Garcia
WEB Developer Junior

ABOUT ME

Experienced frontend developer using technologies like React or NextJS. I enjoy working closely with other developers, as it keeps me motivated to continue learning and deepen my knowledge. I have experience with technologies such as HTML, Javascript, Typescript, React, NextJS, Redux, TailwindCSS, Bootstrap, Material UI, GIT, Bitbucket, Jira, and agile methodologies like SCRUM. I am able to work in both development and production environments and collaborate effectively with other team members. I have the ability to maintain an organized work environment and commit to it.
